

Rendezvous-Elite presents an Enchanting voyage on NCL's Prima ~ 1st in its class for Norway & Iceland discoveries!

Join our advisors as we explore both incredible destinations aboard Norwegian's newest ship designed for spacious and elegant cruising. Norwegian Prima is the first of six ships in NCL's highly anticipated Prima Class, the brand's first new class of vessels in nearly 10 years. With capacity for 3,215 guests at double occupancy, the vessel is designed to put guests first. Norwegian Prima boasts wide-open spaces, thoughtful and stunning design, and a variety of new experiences.

Laying claim to the title of the most spacious new cruise ship in the premium and contemporary categories, Prima offers the most outdoor deck space and expansive accommodations of any new build. She boasts multiple firsts, including Ocean Boulevard, wrapping around the entire deck over 44,000 square feet, allowing guests to connect to the ocean while enjoying alfresco dining and unique experiences such as Infinity Beach, where two stunning infinity pools are positioned to take in the vastness of the ocean with uninterrupted views, and Oceanwalk, where two glass bridges make guests feel like they're walking on air over the water.
